Chiro QuickCharts is a powerful note taking system which provides so much more than progress notes alone. With years of experience working with chiropractors like you, we learned what worked the best for them. Surprisingly, it was the travel card that worked best. This gave you all the needed patient data, and was easy to use. Because Travel Cards were difficult to interpret by outside reviewers, they started fading away and cumbersome and slower computer systems have replaced them.

We engineered a travel card patient chart that will amaze you and satisfy the reviewers. The reports/soap notes can be printed anytime you need them. With *Chiro QuickCharts* we combined patient history, patient flow, patient notes and office chat to keep your office moving quickly.

Chiro QuickCharts has many great features:

- Patient Check-in/Subjective Intake
- Patient Tracking
- In-office Chat
- Travel Card View
- Auto-checkout
- State of the art documentation
- Easily monitor patient progress
- Automated narrative report generator
- Lightning speed SOAP notes
- Supports **ANY** chiropractic technique
- Patients' progress at a glance
- Complete paperless office

Call today for a no-hassle Free Trial that includes Installation and an easy get started manual. Are you a Medisoft user? Ask us how we can pair these two great products.
